2021 Sullivan Amateur Radio Club VHF Day Log Sheet

Callsign:	
Location:	
Power:	
Antenna:	
Power Source:	

BONUS INFO

Send 1 BBS bulletin (addressed to bull/hhh@all): 5 points

Peer To Peer Winlink message: x3 per message

Use SSB/CW/DMR/Fusion/DStar (simplex): x2 per contact Use ANY digital mode (FT8, PSK31, etc): x2 per contact

FM simplex: x1 per contact

Recommended operating practice

Top of the hour: FM simplex
15 after the hour: SSB/CW/Winlink
Bottom of the hour: DMR/Fusion/DStar

45 after the hour: Digital modes (i.e. PSK31, FT8, MFSK)

Note: You may contact the same station on FM, SSB, CW, DMR, Fusion, and DStar for credit. You may only count one digital mode (i.e. FT8) for the same station you worked. For instance, if I worked W1AW on FM, SSB, DMR, and FT8...I get credit for all of those. I cannot, however, count a contact with W1AW on PSK31 also, as I

counted the FT8 credit already.

Station Worked	Mode	Name	Their Location	Their RST (ie S8)	My RST (ie S7)	Time

146.535 | 146.550 | 146.565 | 146.580 | 147.420 | 147.435 | 147.450
